Short Biography of Ozgur Kirca

V.S. Ozgur Kirca is a Professor of Hydraulics and Coastal Engineering at Istanbul Technical University, Department of Civil Engineering.

He has authored and co-authored over 80 scientific papers, and has been involved in many international and national research programs, including projects under EU-FP7 and EU-Horizon 2020 programmes. He worked as a post-doctoral researcher in Technical University of Denmark (2009-2011). His fields of expertise cover seabed-flow-structure interaction, turbulent processes, sediment transport and morphodynamics, physical and numerical modelling of coastal/hydraulic processes, design and assessment of coastal protection structures, statistical and spectral wave analysis. He received “2014’s Outstanding Reviewer Award” from ASCE Journal of Waterway, Port, Coastal, and Ocean Engineering.

Ozgur Kirca has been actively involved in consulting for the industry for over 20 years in different aspects of Coastal, Offshore and Hydraulic Engineering. He has done consultancy work in projects in many countries including Azerbaijan, Belgium, Cyprus, France, Germany, Jordan, Libya, Namibia, the Netherlands, Pakistan, Oman, Saudi Arabia, Taiwan, Turkey, and Turkmenistan.

Personal Information

Full Name	Veysel Şadan Özgür Kırca
Date of Birth	21 October, 1977
Nationality	Turkish
Profession	Civil Engineer, Hydraulics/Coastal Engineer (Ph.D.)
Present Positions	Professor in <i>Istanbul Technical University, Department of Civil Engineering</i> . (https://akademi.itu.edu.tr/en/kircave/)

Professional Experience

2022 - to date	Professor , <i>I.T.U. Department of Civil Engineering</i> , Istanbul.
2016 - to date	Co-founder , <i>BM SUMER Consultancy & Research</i> , Istanbul.
2013 - to date	Consultant for Marine Structures , <i>ECAP Engineering and Consultancy (STFA Group)</i> , Istanbul.
2014 - 2022	Associate Professor , <i>I.T.U. Department of Civil Engineering</i> , Istanbul.
2010 - 2014	Assistant Professor , <i>I.T.U. Department of Civil Engineering</i> , Istanbul.
2009 - 2011	Post-doctoral Research Fellow , <i>DTU Dept. of Mechanical Eng'g. Coastal, Maritime and Structural Eng'g Sec.</i> , Lyngby, Denmark.
2002 - 2009	Research/Teaching Assistant , <i>I.T.U. Department of Civil Engineering</i> , Istanbul.
2002	Civil Engineer/Inspector , <i>Halcrow-Dolsar JV. TERRA-1 SBY1 Project</i> , Yalova, Turkey.
2000 - 2001	Civil Engineer , <i>VINSAN Construction Co.</i> , Istanbul & Ankara.

Education

2003–2008	Ph.D. in Coastal Engineering , <i>Istanbul Technical University</i> , Turkey. (PhD Thesis, <i>Effect of Frontface Configuration on the Performance of Vertical Faced Coastal Structures</i>)
2000–2003	M.Sc. in Hydraulic Engineering , <i>Istanbul Technical University</i> , Turkey. (MSc Thesis, <i>Investigation of Near Shore Behaviours of Long Waves</i>)
1995–2000	B.Sc. in Civil Engineering , <i>Middle East Technical University</i> , Ankara, Turkey.

Research Subjects of Interest

- Seabed-Flow-Structure Interaction
- Liquefaction Around Marine Structures
- Scour/Erosion Around Hydraulic/Marine Structures
- Bottom-fixed and Floating Offshore Wind Structures
- Turbulent Processes
- Sediment Transport
- Flow-Vegetation Interaction
- Coastal, Marine and Hydraulic Structures
- Marine Renewable Energy

Professional skills

Computer Skills: MATLAB, R, Octave GNU, Mathematica, Mapple, MathCad, Fortran, L^AT_EX, L^AT_EX, AutoCAD, MS Office, Surfer, Q-GIS miscellaneous data acquisition, logging and analysis software.

Modelling Tools: Numerical hydrodynamic models, Hydro-morphodynamic and transport models, RANS Modelling of 2D-3D turbulent flows, Spectral wave transformation models, Flood models.

Instruments: LDA, PIV, Laser Sheet, ADV/Vectorino, ADCP, Resistance type wave probes, Pressure transducers, PT100-Lab type digital thermometers, Hydrophones and related interfaces, Directional wave buoys, CTD probes and related equipment.

Grants and Awards

- Istanbul Technical University Academic Performance Award, 2023.
- 2014's Outstanding Reviewer for ASCE Journal of Waterway, Port, Coastal, and Ocean Engineering, 2015.
- TÜBİTAK-2219 Post-doctoral Research Grant, 2009 (Scientific and Technological Research Council of Turkey).

Professional Memberships

- Member of American Society of Civil Engineers (ASCE)
- Member of Coasts, Oceans, Ports, and Rivers Institute of ASCE (COPRI)
- Member of International Society of Offshore and Polar Engineers (ISOPE)

- Member of Turkish Chamber of Civil Engineers (IMO)

Membership in Committees of Academic Meetings

- Member of the Local Organizing Committee of 14th International Hydrosience and Engineering, ICHE 2021, 26-27 May, 2022, Cesme, Turkey. (<http://www.iche2020.org/>)
- Member of the International Coastal Engineering Committee of International Symposium on Offshore and Polar Engineering (ISOPE, <http://www.isope.org/>):
ISOPE 2016-Rhodes, Greece (26 June-2 July, 2016);
ISOPE 2017-San Fransisco, USA (June 25-30, 2017);
ISOPE 2018-Sapporo, Japan (June 10-15, 2018);
ISOPE 2019-Honolulu, USA (June 16-21, 2019);
ISOPE 2020-Shangai, China (June 14-19, 2020);
ISOPE 2021-Rhodes, Greece (June 20-25, 2021);
ISOPE 2022-Shangai, China (June 6-10, 2022);
ISOPE 2023-Ottawa, Canada (June 19-23, 2023).
- Member of the Local Organizing Committee of 35th International Conference on Coastal Engineering, ICCE 2016, 17-22 July, 2016, Istanbul. (<http://www.icce2016.com/>)
- Member of the Organizing Committee of 3rd European Offshore Mechanics Symposium EUROMS, 25-27 June, 2012, Istanbul. (http://www.isope.org/call4papers/2012/EUROMS2012_Call_for_Audiences.pdf)
- Co-chair of the 10th National Symposium on Coastal Engineering, 16-17 November, 2023, Izmir.
- Member of the Organizing and Scientific Committee of 8th National Symposium on Coastal Engineering, 7-9 November, 2014, Istanbul.
- Member of the Scientific Committee of 7th National Symposium on Coastal Engineering, 21-23 November, 2011, Trabzon.
- Member of the Organising Committee of 4th National Congress on Hydrology, 21-24 June, 2004, Istanbul.

International Research Projects

- EU-Horizon 2020 ERA-NET Cofund Project “NuLIMAS: Numerical Modelling of Liquefaction Around Marine Structures” Coordinator: Nils Goseberg, 2020-2023 (<https://nulimas.info>). (O. Kirca is the director of the project in Turkiye with the Project No. TEYDEB-1509/9190068.)

- EU 7th Framework Projects “MERMAID: Innovative Multi-purpose Offshore Platforms: Planning, Design and Operation” Coordinator: Eric Damgaard Christensen, 2012-2016 (<http://www.mermaidproject.eu>) (O. KIRCA is the person in charge of scientific and technical/technological aspects in this project in the ITU team).
- EU-Black Sea Basin Collaboration Program, “SciNetNatHazPrev: A Scientific Network on Earthquake, Landslide and Flood Hazard Prevention”. Coordinator: Kontantinos Papatheodorou, 2014-2016 (<http://www.scinetnathaz.net/>).
- “Seabed Windfarm Interaction”, Coordinator: B. Mutlu Sumer, 2008-2012. Danish Strategic Research Funding Agency (O. Kirca took part in the project as researcher between 04.2010-04.2011)(<http://sbwi.dhigroup.com/>).

National Research Projects

- Qualitative and Quantitative Investigation of Laminar-to-Turbulent Transition in Steady and Unsteady Boundary Layers (2022-2025), TUBITAK (The Scientific & Technological Research Council of Turkey), Project No: 122M024, **Coordinator:** V. Ş. Ö. Kirca.
- Wave-induced Liquefaction Around Marine Structures. Development of Apps for Smart Devices (2018-2020), TUBITAK (The Scientific & Technological Research Council of Turkey), Project No: 7170678, **Coordinator:** V. Ş. Ö. Kirca.
- Investigation of Interaction Between Unsteady Flow and Bridge Piers with Different Cross-Sectional Shapes (2018-2020), TUBITAK (The Scientific & Technological Research Council of Turkey), Project No: 117M969, **Coordinator:** V. Ş. Ö. Kirca.
- Experimental Investigation of Interaction of Cylinder Arrays with Current and Waves (2012-2015), ITU BAP –Istanbul Technical University Scientific Research Project, **Coordinator:** V. Ş. Ö. Kirca.
- Temporal Variation of Hydraulic Characteristics in the Rise and Falling Stages of a Flood Hydrograph (2012-2015), ITU BAP –Istanbul Technical University Scientific Research Project.
- Assessment of General Characteristics of Filyos Creek Basin Using Satellite Images, Field Measurements, DEM and Flow Models (2005-2007), TUBITAK (The Scientific & Technological Research Council of Turkey), Project No: 104Y296, 2007.

- Establishment of a geographical information system on coastal areas under possible earthquake risk (1999-2002), TUBITAK (The Scientific & Technological Research Council of Turkey), Project No: 100Y085, 2002.
- Determination of coastal areas under risk and definition of required preventive measures in case of possible earthquake in Marmara Region (2000-2002), TUBITAK (The Scientific & Technological Research Council of Turkey), Project No: 100Y086, 2002.

Courses Instructed

Undergraduate Courses

- Fluid Mechanics
- Hydraulic Engineering/Hydraulics
- Coastal and Harbour Engineering
- Probability and Statistics
- Water Supply and Environmental Sanitation
- Water Resources
- Engineering Hydrology

Graduate Courses

- Coastal Sediment Transport
- Turbulence Theory
- Wave Climatology
- Advanced Topics in Coastal Engineering
- Advanced Fluid Mechanics
- Hydraulics of Unsteady Flows
- Marine Structures

Special Courses

- Liquefaction Around Marine Structures
(*Advanced short course on Liquefaction Around Marine Structures, Nov. 30-Dec. 1, 2020, organized by BM SUMER Consultancy & Research for the NuLIMAS Project participants.*)
- Liquefaction Around Marine Structures
(*Advanced short course on Liquefaction Around Marine Structures, İTÜ Teknokent, Istanbul, Turkey, September 21-22, 2017, organized by BM SUMER Consultancy & Research.*)

- Scour Around Marine Structures
(Advanced short course on Scour Around Marine Structures, ITU Teknokent, Istanbul, Turkey, September 20-21, 2018, jointly organized by DHI Water & Environment and BM SUMER Consultancy & Research.)
- Modelling Coastal Morphodynamics
- Performance Based Design of Coastal Structures

Supervised Graduate Theses

- Selahattin Bayram “*Hydrodynamics of Stratified Currents, Mathematical Modeling of Current and Mixture Parameters*”, Supervised MSc. Thesis, ITU, 2022.
- Selahattin Utku Yılmaz “*Numerical modelling of wave induced soil liquefaction around buried pipelines and cables*”, Supervised MSc. Thesis, ITU, 2022.
- Mehrnoush Kohandel “*Experimental Study on Interaction of Unsteady Flow With Bridge Piers with Different Cross Sections*”, Supervised Ph.D. Thesis, ITU, 2021.
- Ömer Sarı “*Reliability-Based Analysis of Inception of Motion of Bed Sediment*”, Supervised MSc. Thesis, ITU, 2020.
- Rıza Evren Kılçı “*Investigation of Novel Methods for the Foundation Design of Coastal Structures Placed on Embankments*”, Supervised Ph.D. Thesis, ITU, 2019.
- Giray Çıvık “*Numerical Modelling of Earthquake-Induced Seabed Liquefaction*”, Supervised MSc. Thesis, ITU, 2019.
- Berrak Doğan “*Investigation of Scour and Backfilling Mechanism Around a Single Slender Pile in Steady Current and Waves*”, Supervised MSc. Thesis, ITU, 2019.
- Nazlı Çiçek Söylemez “*Effect of Channel Cross-sectional Shape on the Initiation of Motion and Bed Load Discharge*”, Supervised MSc. Thesis, ITU, 2019.
- Selman Baysal “*Sedimentation Analysis in Navigational Channels and a Simplified Model for Practitioner*”, Supervised MSc. Thesis, ITU, 2018.
- Ece Ünsal Karakuş “*Investigation of Heavy Water Discharges via Numerical Modelling*”, Supervised MSc. Thesis, ITU, 2018.
- İpek Kutlu “*A New Method for Calculation of Wave Forces on Group Cylindric-Piled Exposed Sea*”, Supervised MSc. Thesis, ITU, 2018.
- Seyedmahdi Saghebani “*Investigation of Dune Bedforms and Their Influence on Hydraulic Characteristics of Open Channel Flows*”, Co-supervised Ph.D. Thesis, University of Tabriz, 2018.
- Filippo Favero “*Experimental Investigation of Current Interactions with Cylinder Arrays*”, Co-supervised MSc Thesis, University of Trento (Università Degli Studi di Trento), 2015.
- M. Buğra Baykuş “*The Influence of Unsteadiness Degree on Hydraulic Characteristics in Free Surface Flow via Numerical Modeling*”, Supervised MSc Thesis, ITU, 2015.
- Selçuk Demirbaş “*Longitudinal Dispersion of Heavy Particles in a Free Surface Flow over Rough Bed*”, Supervised MSc Thesis, ITU, 2015.

- Eren Tandoğan “*Turbulence and Flow Structures at Downstream of a Group of Inclined Cylinders*”, Supervised MSc Thesis, ITU, 2015.
- A. Lami Açısal “*Experimental Examination of Performance of an Inclined Thin Plate Type Breakwater*”, Co-supervised MSc Thesis, ITU, 2013.

Academic Review/Editorship Experience

- Reviewer for scientific journals including

Physics of Fluids
Coastal Engineering
ASCE Journal of Waterway, Port, Coastal, and Ocean Engineering
ASCE Journal of Hydraulic Engineering
Ocean Engineering
Journal of Coastal Research
Applied Ocean Research
Nature (Scientific Reports)
Journal of Hydraulic Research
Applied Mathematical Modelling
ICE, Maritime Engineering
ASME Offshore Mech. and Arctic Engineering
ASCE Journal of Engineering Mechanics
International Journal of Ocean and Coastal Engineering
International Journal of Offshore and Polar Engineering
Soil Dynamics and Earthquake Engineering
Engineering Geology
Journal of Ocean Engineering and Marine Energy
Journal of Ocean University of China
Journal of Ocean and Wind Energy
Regional Studies at Marine Science
Geo-Marine Letters
Geomatics, Natural Hazards and Risk
Arabian Journal of Science and Engineering
Teknik Dergi
European Water

- Editorship for scientific journals

Guest co-editor for *Journal of Marine Science and Engineering*, of the special issue “[Coastal Geohazard and Offshore Geotechnics](#)”.

Guest co-editor for *ASCE Journal of Waterway, Port, Coastal, and Ocean Engineering*, of the special issue “[Modelling of Liquefaction Around Marine Structures](#)”.

- Reviewer for the book

“Liquefaction around Marine Structures” by B. M. Sumer, 2014, World Scientific.

- Reviewer of project proposals for funding bodies including

EU Horizon Europe Project Calls for European Climate Infrastructure and Environment Executive Agency (CINEA)

The Scientific and Technological Research Council of Turkey (TUBITAK)

Istanbul Technical University, Scientific Research Projects Unit

Yildiz Technical University, Scientific Research Projects Unit

Aydın Adnan Menderes University, Scientific Research Projects Unit

Kırıkkale University, Scientific Research Projects Unit

- Reviewer for international conferences including

International Conference on Coastal Engineering, ICCE (ASCE, COPRI)

International Symposium on Offshore and Polar Engineering (ISOPE)

Pacific/Asia Offshore Mechanics Symposium, PACOMS (ISOPE)

Offshore mechanics and Arctic Engineering Conference (OMAE)

Geotechnical Frontiers (ASCE, G-I)

Publications

A. Liquefaction in marine soils

A.1. Peer-refereed journal papers

- A.1.1. Sumer, B.M., **Kirca, V.S.O.**, Fredsøe, J. (2012) “Experimental validation of a mathematical model for seabed liquefaction in waves”. International Journal of Offshore and Polar Engineering, 22(2), 133-142.
